

# LSDF Pilot's Locker Room

Located near launch bays and pilot ready rooms, the pilot's locker room has an increased utility purpose than some other locker room configurations. Pilot locker rooms include lockers which are used for storing flight gear, uniforms, and standard gear which individual pilots carry upon their person. Joining with the pilot's locker room are often shower or bath compartments. Pilot room lockers include a range of Lorath locking mechanisms comparable to those used in Lorath armories such as neural locks, DNA scanners, biometric scanners, [Pico-Jelly](#) keys, and pass-codes. Aside from the lockers, pilot locker rooms also include optional furnishings or amenities chosen by the armor wing or squadron commander.
