

# NMX Science Adviser

**NMX** Science Advisors are typically ship-based crew members (either **Mishhuvurthyar**) who are proficient in sensor operation, and trained in expanding **NMX** sciences. They study new flora and fauna to determine its risk to **NMX**, as well as possible ways to utilize them against their enemies.

Science advisers also conduct experiments, most of them are intended to test a new device, agent, life form etc. Sometimes these experiments serve no significant purpose beyond amusing the advisers and their supervisors.

Quite often they work with **Mishhuvurthyar Prisoner Handling & Procreation Specialists** regarding acquiring laboratory subjects for their experiments.
