

1st Assault Fleet

The 1st Assault Fleet of the Democratic Imperium of Nepleslia has been standing since the first great space wars. Along the way to present day, the 1st AF has underwent dramatic changes in leadership, mission and command structure, but all previous variations of the 1st AF have been aimed towards the same goal: the future of [Democratic Imperium of Nepleslia](#). Grand in size, immeasurable in strength and led by one of the oldest living ID-SOLs in existence, the 1st Assault Fleet has gained both respect and infamy throughout Nepleslia and her sister systems.

In [YE 34](#), 1st Assault Fleet took part in [Rok'Veru Offensive](#) to retake the [Rok'Veru](#) system. Following the campaign, the fleet returned to Nepleslia for refit and modernization.
