

Master Chief (Old Nepleslian Rank)

The Master Chief is a basically a [Chief \(Old Nepleslian Rank\)](#) upgraded to a master status on a Naval Corps vessel. Master Chiefs usually take command of all the squads of Marines with [Chiefs](#) and [Sergeants](#) under him. In the case that there are too many squads for one Master Chief to handle, another Master Chief is appointed and a [Senior Chief \(Old Nepleslian Rank\)](#) is placed in command of the two or more Master Chiefs. If there is only one Master Chief, he/she will act as a representative voice to all the enlisted and chiefs below him. If there are more than one Master Chiefs, that responsibility will be transferred to a [Senior Chief \(Old Nepleslian Rank\)](#). As a representative, the Master Chief is also one of the most skilled fighters on the ship (if not the best.) A character of this rank makes 600 DA a week.

This rank has been discontinued. See [Nepleslian Military Ranks](#).

For the modern equivalent see [Master Chief Petty Officer](#).
