

# Senior Chief (Old Nepleslian Rank)

## Role

When a [Master Chief \(Old Nepleslian Rank\)](#) is appointed on a vessel, a tactical advisor is placed over him to help assure victory. This tactical advisor is known as a Senior Chief. The Senior Chief doesn't usually attend into battle, that's why representation and command is usually given to the Master Chief. However, the Senior Chief can override a [Master Chiefs](#) authority if he becomes out of hand, or makes too many wrong decisions. When there is more than one [Master Chief \(Old Nepleslian Rank\)](#), the Senior Chief assumes command and representation.

This rank has been discontinued. See [Nepleslian Military Ranks](#).
