

Nepleslian Star Empire

The Nepleslian Empire was founded in [YE 28](#). Nepleslia is the rebirth of a very old empire, once the core of civilization. For 28 years, the [Ketsurui Clan](#) has forcibly ruled the stars under the banner of [Yamatai](#), primarily through military might. When the Uesureyan Empire split into factions for the last time, the small faction that colonized planet Geshrintall ([Yamatai \(Planet\)](#)) eventually gained control of the larger faction, boosting its own numbers immensely through the use of advanced genetics. The result was the [Yamatai Star Empire](#). Now, the old faction that has been suppressed, founded on the planets [Damasica \(Neo Kohana\)](#) (now Fenyar), [Rok'Veru](#), and lastly at [Democratic Imperium of Nepleslia](#), is re-emerging with its traditional values and culture, which focus strongly on individual freedoms and the pursuit of luxury.

In [YE 30](#), the Nepleslian government underwent a change, becoming the [Democratic Imperium of Nepleslia](#).
