

Ground Orbital Offensive Structures

These are structures intended to attack orbiting ships, or ships that are within a certain AU or KM's of the planet. The [Kingdom of Neshaten](#), though the use of modular components, often times has their GOOS's also target ships in atmosphere, however, attacking ground units is a risky venture but is still possible - hence the name 'Ground' Orbital Offensive Structures.

Structure List

A list of all structures and their current status.

Name	Status
Miine Planetary Defense Installation	Development Stage
