

# Neshaten Myleke-Centric Modules

My'leke have a rather unique method of utilizing weapons, because they lack the same biology as their Shukaren counterparts, they instead utilize the [My'leke Universal Module](#) for mounting weapons on their backs, although this module is found used in the civilian sectors. All weapons here are freely available to civilians unless specified.

| Module Type                                   | Damage or Ammunition <sup>1)</sup> | Price   | Note                                |
|-----------------------------------------------|------------------------------------|---------|-------------------------------------|
| <a href="#">Taurus Anti Tank Cannon</a>       | Tier 4, Light Anti-Armor           | 1092 Rn | Can only be used by Law Enforcement |
| <a href="#">Maku'ran Anti-Infantry Turret</a> | Tier 2, Medium Anti-Personnel      | 708 Rn  | Can be used by civilians            |
| <a href="#">Medical Module</a>                | No damage                          | 500 Rn  | Used by all                         |
| <a href="#">Battle Rider Module</a>           | Damage dependent on weapon mounted | 848 Rn  | Law Enforcement and Military only   |
| <a href="#">fire_fighting_module</a>          | None, firefighting only            | 777 Rn  | Used by all                         |

<sup>1)</sup>

Link articles if multiple ammo is used
