

# Tsumi Warforges .30 caliber

The TWF-30cal is a standard large-sized caliber of cartridge that was designed and produced by the TWF, or Tsumi War Forges long ago. After their exodus of being cast from their homeworld, however, this old designs was dusted off and produced once more.

To most humanoids, this caliber is most commonly used in anti-armor weapons and even vehicle weapons given their large size. But for the [Tsumi](#), it is more comparable to something as equivalent as a cartridge like 7.62.
