The Company was founded in ER 474 and was a generally neglected part of the company up until EE00 when [Viz'lieun'varya He'uiasye](#) took over as COO, She saw the potential that the subsidiary company had to bring to the table and decided to invest into the advancement of the company. Within the next two years the company

Slogan

Vi'cana Pharmaceuticals is dedicated to prolonging your life, and eradicating the detrimental illnesses that can bring that life to an end. We stick true to our name, Vi'cana Pharmaceuticals is your cherished friend and we will always have your best interests at heart.

History

Created two years after the creation of the [Shukara Armaments and Manufacturing](#) company, VP was to be the leader in medical and enhancement drugs for the [Kingdom of Neshaten](#). However, with an increase of want for weaponry and space ships S.A.M. instead focused their attention upon the development of those things. As such, while still remaining open, VP had little to no funding for several years.

In EE00 a young Daur, and current COO of S.A.M. took interest in the downsized company and decided to take over as the CEO of that company while working as the COO for S.A.M. This woman was named

[Viz'lieun'varya He'uiasye](#) and she was a cutting edge entrepreneur. She saw potential in the company, and she put everything she had into starting it back up, and even convinced her father to give her an increased budget that allowed her to hire potential scientists and pharmacists to develop some of the drugs that have been used in Medical care in more recent times.

Within one year, VP was doubling the profits they started out with. The company was a wide spread success with many different drugs that aided both military and medical personnel a like. By the second year, VP was a company that could stand upon its own feet if they so desired to, but they stayed as a subsidiary to S.A.M. due to obligations between the CEO and the COO.

Location

Vi'cana Pharmaceuticals is located on [Nesha Prime \(Planet\)](#), along with their leading company [Shukara Armaments and Manufacturing](#). The main building is located 10 kilometers to the west of the primary trading hub of Kester. Although the main building is located in a remote area, outside of a city, they have smaller buildings located in at least every major city; including, but not limited to: [Netoshen](#), Kester, Ram'tena, Ka'teneh'ae, Lewren-Vascen, Sereia, We'mena, Zui'tashe'ne, and May'nale.

While the main corporate facility houses the majority of their factories, and laboratories that develop and manufacture their products; the smaller buildings handle different things such as Public Relations with each city, Advertisement Campaigns, scouting of potential recruits, as well as handling grievances and problems in that city. So while the buildings are smaller, they are still relatively important to the overall makeup of Vi'cana Pharmaceuticals.
