

Nanotechnology Restrictions

Proposal #65: Nanotechnology Restrictions was submitted by [Ketsurui Yui](#) on [Senate of Yamatai](#) in [YE 27](#) was defeated.

Purpose:

1. To ensure the safety of Imperial citizens.
2. To regulate the certain devices so as not to interfere with trade.

Proposal:

1. Expand the restricted technology list to change [HSCS](#) to all devices used to construct something at a molecular level or below by means of extremely small mechanisms or electromagnetic beams, such as [HSCS](#), [Nodal System](#), Nanolathe devices and similar systems.
2. Add matter/energy conversion shield systems to the list of restricted technologies.
3. Make it illegal to litter any charted spaceway with garbage or other materials, punishable by fines and imprisonment.
4. Organizations could be permitted to use the technologies restricted in item 1 of this proposal by way of government permission.
