

Nekovalkyrja Re-integration Plan

Proposal #58: Nekovalkyrja Re-Integration Plan was submitted to the [Senate of Yamatai](#) by [Ketsurui Ayame](#) in [YE 27](#) this proposal failed and was resubmitted by [Ketsurui Yui](#) where it was defeated again.

Later it was passed via #62 [Species Management Plan](#).

Purpose:

1. To reduce the percentage of [Nekovalkyrja](#) in the [Yamatai Star Empire](#)'s population. The large-scale wars fought by the Star Army have resulted in a massive increase of the population, almost exclusively in the [Nekovalkyrja](#) species. [Nekovalkyrja](#) are for the most part good people, but they are designed for war, not for civilian life, and their superiority has caused much discomfort for non-Nekovalkyrja people.
2. To revisit the [Human](#) species and create a new "[Yamataian](#)" species that will become the new standard race of the Empire, incorporating enough elements of the [Nekovalkyrja](#) that NH-22C and NH-17R nekos will not be significantly "downgraded" but doing away with features not needed in everyday life like hemosynthesis (besides healing), stealth, and full anti-gravity control.

Proposal:

1. Create a new genetics agency dedicated to the [Nekovalkyrja](#) and disallow any other entity to be involved with modification of [Nekovalkyrja](#) genetics.
2. Create a new genetics agency dedicated to the creation and service of the Yamataian (human-like) species.
3. Offer free, easily available upgrades from any other species to Yamataian, possibly through the [PANTHEON](#)'s nodal system.
4. Gradually phase out the [Nekovalkyrja](#) from roles better served by Yamataians (science, medical, and most other jobs, whereas combat and piloting should keep [Nekovalkyrja](#)).
5. Dissolve the Nekovalkyrja War Fleets after major combat operations end, and limit all future fleets to under 5,000 starships.
6. Design future [Star Army of Yamatai](#) and civilian vessels with Yamataians in mind.
