

Proposal #117 Local Governments and Regional Suzerainty Act of YE 44

An amended reintroduction of [Special Proposal #114 Local Governments Act](#).

History

The [prior proposal](#) introduced to the [Senate of Yamatai](#) in YE 43 by Senator [Iemochi Seinosuke](#) and amended by Senator [Anslen Volontary](#) was withdrawn. Senator [Takagawa Hitomi](#) revised the the bill with further amendments to resolve the concerns leading to its withdrawal, and also to codify Regional governments above System but below Imperial level. Unlike its predecessor, it does not amend the [The Constitution of Yamatai Star Empire](#). However, she resigned as Senator before introducing it.

Purpose

1. To resolve concerns that caused [Special Proposal #114 Local Governments Act](#) to be withdrawn.
2. To clarify the separation between the executive leadership and legislative representation of System and Regional governments.
3. To clarify the distinction between sovereign and administrative governments.
4. To clarify the distinction between the Executive and Legislative organs of government.
5. To establish that Governors are the representatives of the Imperial Sovereign to the People, *and likewise*
6. To establish that Senators are the representatives of the People to the Imperial Sovereign.
7. To enshrine in law the *de facto* tradition that Systems are self-administrating while still being subject to Imperial sovereignty.
8. To allow Systems in stellographic proximity to one another to be united under a single administrative government as a Region.
9. To recognize that since *at least* the incorporation of the [Elysian Celestial Empire](#) into the [Yamatai Star Empire](#), the latter has not truly been a unitary state, and *furthermore*
10. To recognize that an Empire is, *definitionally*, not a unitary state but, outside of *Imperial Demesne*, a federation of independently administrated Regional suzerainties under common sovereignty.
11. To clarify representation and government for those people not in a System with a currently sitting Senator or Governor.
12. To provide contingencies for when the civilian government of a System is unable to operate.
13. To provide legal basis for the internal administration of the Empire's administrative Regions.
14. To provide relief for war-depleted Star Army fleets from responsibility for protection from low-level, non-state-actor threats such as piracy, by trusted organizations with no other duties or responsibilities.
15. To recognize the need for organic, native system defense militia after the Kuvexian offensive demonstrated the efficacy of organic, native resistance to occupying forces.
16. To preserve the dignity, practice, and legacy of the unique cultural, historical, and political

institutions of those theretofore-sovereign interstellar states which have been, or will ever be, subsumed in their entirety or in part into the [Yamatai Star Empire](#).

Proposal

This Act may be known and be cited as the Local Governments and Regional Suzerainty Act of YE 44

Title I

Powers and Authorities delegated by the Imperial Sovereign to Governors:

1. The Empress or Emperor of Yamatai is the Sovereign leader of the Empire. As such, she may delegate the administrative authority of a specific System or Region to a subordinate Governor. If there is no Governor for a System or Region, then the Imperial Sovereign may appoint one with the advice and consent of the Senate. The Imperial Sovereign may remove a Governor at will.
 1. The Senate and Premier shall hold a special session to create formal advice regarding candidates for appointee, and the Premier shall submit this advice to the Imperial Sovereign.
 2. If consent is not given by the Senate to appoint a new Governor, then the Governor's chosen successor becomes Governor as prescribed in the System or Regional Charter for that Gubernatorial slot.
 3. The Imperial Sovereign is not required to appoint a Governor, but once one has been appointed, all provisions of this Act apply.

2. A Governor is the chief civilian executive of a System or Region. The responsibility for the System's safety and well-ordered functioning is delegated to the Governor. They are responsible for providing their citizenry with prosperity and safety. They must create and administer System defense forces and civilian security police, or contract for the same with a Yamataian entity to provide the same, for the protection of their System and act as auxiliary to Star Army or Imperial Law Enforcement, respectively, as required.
3. A Governor or delegated entity may create local bylaws and administer their jurisdiction by their own authority, according to their System or Regional Charter, provided they do not breach [Laws of the Yamatai Star Empire](#) or the [The Constitution of Yamatai Star Empire](#). A Governor may delegate their power to enact bylaws and regulations, form System, Regional or planetary governments, law enforcement, and militias as they deem appropriate, or to contract with a Yamataian entity to provide any of the same.
4. No individual may at the same time serve as a Senator and a Governor, nor as Premier and a Governor, nor as Steward and a Governor, nor as Governor for more than one system, and anyone serving as any of these must vacate their seat *prior* to formalizing their candidacy for another of these roles.
5. In the absence or collapse of a System or Regional government, or at the emergency request of that System's Senator, a Custodian may be appointed by the Premier. The System's Custodian is temporarily afforded the rights and responsibilities of that System's government. A Custodian cannot be responsible for multiple Systems. Being a Custodian does not afford a Senate position and the Senator of that System, if one exists, is considered a Senator-in-Exile who is still granted voting rights. The Premier shall work with the Custodian and they shall be provided resources such that the System can eventually be either eligible for its first Senator or its Senator-in-Exile can return. If the Custodian and the Premier agree they cannot overcome these challenges, they shall request that the Imperial Sovereign tasks the Star Army to provide any necessary support.
6. A Governor has the right to raise concerns regarding their System to the Senate, Premier, and Imperial Sovereign. A Governor has the right for these concerns to be given reasonable consideration by the Imperial government.

Title II

Regional Suzerainties and the powers and limitations thereof:

1. The formation of a new Region must be approved by both the Senate and the Imperial Sovereign.
2. The formation of existing Yamataian Systems into a new Region must unanimously pass a special referendum comprising all Governors and Senators representing those Systems, and a draft Charter approved unanimously by the same, before the request to begin the process of constituting a new Region shall be presented to the Imperial Sovereign by the Premier.
3. The Governor of a Region or their delegate must appoint lieutenant Governors of the Systems the Region comprises, or delegate that duty to the electorate of the planets, in the Regional Charter.
4. Systems subject to Regional authority must have their own Charters, also subject to all provisions of this Act. A System may opt to use the Regional Charter as their System Charter if the Regional Charter satisfies all necessary conditions for validity as defined in this Act when applied as a System Charter, less verbiage specific to Regional governance and thus irrelevant to System governance.
5. No individual may at the same time serve as Regional Governor and a System Governor, and anyone serving as any of these must vacate their seat *prior* to formalizing their candidacy for

another of these roles

6. [Laws of the Yamatai Star Empire](#) or regulations of same are always presumed to preempt System or Regional law or regulation.
7. Systems that are part of a Region still maintain any Senate seat they would be otherwise eligible for, despite being under common administrative authority and possessing a single Governor. Senators representing different Regions of the same System vote independently of one another in the Senate, thus no Region shall make or respect a law requiring the Senators of a Region to vote in any specific manner or penalizes failing to do so.
8. A Regional association and its administrative authority may be dissolved with the unanimous decision of all Senators not representing the Region in question, the Imperial Sovereign, and the Premier. In the instance of Regional dissolution, Title I, Article 1 of this Act comes into immediate force.
9. A System considered *Imperial Demesne* may not associate itself with any existing or future Region. Systems considered *Imperial Demesne* created by this act or by prior act of law or treaty, or historical practice, preempting any any article, section, or clause in this Act *include*:
 1. The [Yamatai Star System](#) and
 2. All Systems within 10 light years of that System, known as Core Yamatai, *including*:
 1. [Nataria](#), and
 2. [Tatiana](#), and

 7. [Damasica \(Neo Kohana\)](#), and
 8. Any other System, known or heretofore undiscovered, within 10 light years of the [Yamatai Star System](#) that at any time becomes part of the [Yamatai Star Empire](#), unless admitted by treaty under different terms.
10. Any sovereign entity comprising multiple Systems that is hereafter incorporated into the [Yamatai Star Empire](#) and thereafter subject to Imperial sovereignty according to Article IV of [The Constitution of Yamatai Star Empire](#) will remain intact, and will immediately and automatically become a Regional suzerainty as defined in this Act, unless conflicting terms are approved as part of the treaty establishing the incorporation, in which case those terms pre-empt this Act. All other terms of this Act that are not in conflict with such a treaty will remain in force in all other respects.
11. No Region or System shall enter into binding treaties with foreign state entities, nor does any Region or System have the power to bind the [Yamatai Star Empire](#) to the same.
12. No article or section of this Act relieves or absolves any party bound by prior treaty of any duties, obligations, rights, or privileges afforded to or required of them with regards to the suzerainty of the [Elysian Celestial Empire](#), but may extend existing rights or privileges, or create new rights or privileges.
13. The powers not delegated to the [Yamatai Star Empire](#) by the [The Constitution of Yamatai Star Empire](#), other [Laws of the Yamatai Star Empire](#), or decree of the Imperial Sovereign, are reserved to the Regions or Systems respectively.

governance of a System or Region.

1. System or Regional civilian Law Enforcement or Security agencies shall not participate in military actions unless they and the System or Regional defense forces are lawfully one and the same.
