

Request For Relief Support For Lor

Proposal #76: Request for Relief Support for Lor was submitted to the [Senate of Yamatai](#) by the [Lor](#) senator in [YE 29](#) and passed with a vote of 3 Yay / 1 Nay.

Justification

A young looking man, with short blue streaked silver hair stood on the parapet where the speaker on the floor stands when Senate is in session. He had a somewhat serious and somber look to him, as he absent-mindedly smoothed his long purple robes about every thirty seconds. A small pair of black feathered wings rested snugly against his back as he cleared his throat and addressed the senate.

"Greetings, I am the senator elected to speak on behalf of my people, for those who wish to speak to me with an informal name, I am simply known as "Senator" even among my own people."

He said, trying to make light of his people's naming habits.

"Now, on to why I called this session of the Senate to order. I'm sure many of you have heard about the battle between the [Mishhuvurthyar](#) and the [Star Army of Yamatai](#) that happened around our home system and I am sure you also heard that the [SMX](#) tried to genocide my people. By way of dropping a moon, which was instantly moved from its location in orbit from the Gas Giant, to within terminal distance from our planet's surface. We extend our greatest thanks to the Empire and her ships and crews who managed to avert a great tragedy from ever happening.

However, this also brings me to why I am here today, The Star Army of Yamatai stopped the moon from crashing, but the resulting debris still did a great deal of damage, this may sound a little presumptuous from a recent acceptee, but Lor requires aid to clean up the damage and rebuild what was lost.

My proposal is more a request that Yamatai, the 'Big Brother' to us underdeveloped worlds assist us in our time of need. I have dispatched my work aid to pass out the copies of my proposal."

He said this as a [Helashio](#) female, with long green hair and large sapphire eyes; wearing a simpler yet still purple robe, walked among the seats, handing out data pads with the request. She had a somewhat vacant look to her eyes though she lacked the basic [slave control collar](#) most Helashio wore. When she was finished and returned to her seat, Senator cleared his throat again and spoke up once more.

"Now, onto my proposal..."

Purpose

1. To assist a world and its people who were subject to extensive collateral damage.
2. To garner further support from the [Lorath](#) people.
3. Setting up an outpost right next to SMX space, to both guard the border and Guard the people.

4. Formally train Lorath Fynnuen, Ocheesta and Lmanel in proper protocols and customs of the [Star Army of Yamatai](#) so they may serve their worth as soldiers and officers.

Proposal

1. We request that Yamatai, or a bureaucratic entity that serves the Empire, send relief aid in the form of Medical supplies, doctors and machines to help treat the injured and account for the dead in effected areas.
2. Machinery be sent to help clean the effected areas, as well as help rebuilt the cities and transportation systems that were damaged or destroyed from the Moon's debris.
3. We also request form the empire or entity to send food supplies and water as well as basic survival equipment to the effected areas
4. Land will be set aside for a garrison and outpost that can be built for the duel purposes of defending the [Lor](#) system and the border as well as training the [Lorath](#) to be productive members of the Yamataian War effort.

OOC Notes
