

# Sexual Relations

[Proposal #51: Sexual relations](#) was created by Sergei in [YE 26](#) in the [Senate of Yamatai](#). This proposal failed as it was considered too severe and is already covered by laws protecting against sexual assault.

## Purpose:

1. To put a stop to the rampant sexual behavior between crew members.
2. To protect the crew from unwanted relations or touching.

## Proposal:

1. There will be no unnecessary touching among the crew. It will be acceptable to rub a shoulder or pat the back of someone who has just lost someone, but there will be no groping.
2. In the instance of the usual greeting among people who have not seen each other in a great while, hugging will be allowed as well, but the duration should be limited to at most four seconds, and once again, no groping.
3. Kissing will be allowed, but it has to be short, and accepted by the person being kissed. No means no, in this instance. To continue to engage in an activity not welcomed by both people will result in disciplinary action. (See part 5)
4. Excessive use of public displays of affection, (I.E. Groping, petting, humping in the halls), is not allowed, and any persons or nekos found doing such things will be subject to disciplinary action. (See Part 5)
5. Disciplinary Actions are as follows:
  1. Men will have one warning placed against them, but on the second offense, they will be subdued, brought to the medical bay, and castrated. The punishment will last for at most three days, and then the medical team will reattach removed genitals.
  2. [Nekovalkyrja](#) will have one warning as well, and on the second offense, will be brought to the medical bay to have their libidos temporarily turned down, or off if the offense warrants.
  3. Women that are not Neko in origin, will have one warning, and then will be chemically castrated. This means that a drug will be administered that will completely shut down reproductive organs, and allow for no arousal whatsoever.
6. All persons involved in a "Sexual Harassment" dispute will be quarantined and psychologically tested by a medical officer to determine if what they say is true. If quarantine is to overlap a person's scheduled shift, a replacement will be found within their department. If a person is not found within the person's department, a related field will be called upon.
