This is an excuse to drag out dark things from the past of the people we're supposed to be serving and parade them around for all to see so that certain people can try to install new leaders. You are intentionally dishonoring the Emperor and late Empress, and as such you are completely in the wrong. The population of Hoshi no Iori has always been strongly tied to the military and our surviving populace will make every effort to protect the leaders of our great empire from this wretched act of treachery.

Purpose:

This information will remain within the board until the final report to the senate so that classified information is not released to the public.
3. The board will receive military support and compliance to acquire information from non-cooperative sources. Personnel obstructing the board's investigation can be detained for an amount of time deemed reasonable by the board.
4. This board will compile a report of its findings for the senate to review so that proper changes in the government and military can be made to prevent this kind of situation from re-occurring
