

# Senate of Yamatai

In [YE 30](#) the senate saw a change in the Empress; as well as, participated in the [international\\_relations\\_conference\\_of\\_ye\\_30](#) with delegates from Elysia, Nepleslia, Kohana and even, [Melisson](#) representing the SMX. An Imperial Decree from Empress [Motoyoshi Katsuko](#) removed the Senate's ability to effect matters directly concerning the [Star Army of Yamatai](#). Later, the senate was expanded to include all Yamataian Citizens, but this was later rescinded via Proposal 104.

The current Imperial Premier is [ketsurui\\_yuumi](#), as played by [doshii\\_jun](#).

Taken from every [empire system](#) with a total (non-refugee) population of one million or higher and any special exceptions.

As a player, you may claim any unclaimed worlds by posting in the [OOC thread](#) and then being granted it

by [Wes](#). There is the following criteria for approval; You have to **like** Yamatai, don't go trying to sabotage it from the inside. You're a elected official, have some sense. You will be expected to be the curator for your chosen world and may be prompted to add content to it. *After* you are approved, you can bring a relevant character, if any, or create a new [NPC](#). New NPCs must be approved, still, however the process is much more lenient. Once done - Welcome to the Senate! Don't forget to edit the information into this page when you're done.
