2024/06/02 02:34 1/6 Senate of Yamatai

Senate of Yamatai

In YE 30 the senate saw a change in the Empress; as well as, participated in the international_relations_conference_of_ye_30 with delegates from Elysia, Nepleslia, Kohana and even, Melisson representing the SMX. An Imperial Decree from Empress Motoyoshi Katsuko removed the Senate's ability to effect matters directly concerning the Star Army of Yamatai. Later, the senate was expanded to include all Yamataian Citizens, but this was later rescinded via Proposal 104.

The current Imperial Premier is ketsurui yuumi, as played by doshii jun.

Taken from every empire **system** with a total (non-refugee) population of one million or higher and any special exceptions.

As a player, you may claim any unclaimed worlds by posting in the OOC thread and then being granted it

by Wes. There is the following criteria for approval; You have to **like** Yamatai, don't go trying to sabotage it from the inside. You're a elected official, have some sense. You will be expected to be the curator for your chosen world and may be prompted to add content to it. *After* you are approved, you can bring a relevant character, if any, or create a new NPC. New NPCs must be approved, still, however the process is much more lenient. Once done - Welcome to the Senate! Don't forget to edit the information into this page when you're done.
