

Jerky

A beloved snack that transcends time and space, 🌐jerky remains an evergreen favorite in the far reaches of the galaxy. Price: 5 KS for a nice, decent-sized bag.

History

Jerky's origins date back thousands of years on planets like Earth, where ancient civilizations discovered the benefits of preserving meat by drying it. This age-old technique enabled communities to store their food supplies, making long journeys and survival during harsh seasons more feasible. The method, which began out of sheer necessity, evolved into a beloved tradition.

By the time humanity expanded its footprint to the stars, jerky traveled with them, adapting to new environments and cultures. Within the Star Army universe, jerky has become a symbol of home, resilience, and shared history.

Description

At its core, jerky is dried meat. Traditionally, it was made by dehydrating strips of meat under the sun or by smoking them. In the Star Army setting, while these classic methods still exist, advanced dehydration techniques and flavors infuse the snack with diverse profiles.

While beef jerky remains iconic, the galaxy's vast array of species and flora introduced new variants, ranging from exotic alien fauna jerky to plant-based alternatives tailored for vegetarians and non-carnivorous species.
