

# Akelost's Gift

During the [Arrival of the Norians](#) in [YE 44](#), the Akelost Leviathan Hybrid Ark Alpha perished as a result of its wounds from fleeing the Avaen Universe. As a gift of thanks to the inhabitants of the [Kikyo Sector](#) its final act was used to produce a device called Akelost's Gift<sup>1)</sup>.

Akelost's Gift	
<b>Year of Creation</b>	<a href="#">YE 44</a>
<b>Designer</b>	<a href="#">Tsenlan</a> State, Akelost Leviathan Hybrid Ark Alpha
<b>Nomenclature</b>	None, One-Time Plot Device
<b>Manufacturer</b>	Akelost Leviathan Hybrid Ark Alpha
<b>Fielded by</b>	<a href="#">Star Army of Yamatai</a>
<b>Availability</b>	Prototype. One-time use.
<b>Price</b>	Priceless

## History and Background

In [YE 39](#), a rogue faction of the [Lorath Matriarchy](#) left the [SARPIverse](#) in [Project Checkout](#). It left the worlds of [Lor](#), [Nyli](#), and [Hici'emi](#) turned to [Zesuaium](#) and the space around the highly unstable. In [YE 40](#), a group of those [Lorath Matriarchy](#) under Pandora<sup>2)</sup> were encountered by the [Norian Continuum](#) and eventually were accepted as citizens into the [Norian](#) nation.

As a result of Akelost Leviathan Hybrid Ark Alpha having several of these [Lorath](#) onboard it was aware of [Project Checkout](#) and with its ancient knowledge of the multiverse, it constructed a device known as Akelost' Gift designed to reverse the effects of [Project Checkout](#). The gift would be given to the [Yamatai Star Empire](#) as a result of their rescue of the citizens who inhabited the Ark.

## Appearance

Akelost's Gift appears as a large blob resembling a 🐡 [Sea Squirt](#) that is the size of a small asteroid. 110m wide by 70m high diameter oval shape. Its outer structure consists of protective violet-colored [Leviathan Husk](#) with several sensory nodules and structures on the surface that are a brilliant gold color. When activated it has an orifice that will open to its brilliant glistening core which contains the constructed components of its systems.

## Function and Design

Akelost's Gift utilizes a high-powered [Transuniversal Teleportation Drive](#), combined with a temporal attunement system and a very powerful mindhive made through [Mindhive Technology](#). The device is designed to be delivered by a [starship](#) to the location of the [Lor](#), [Nyli](#), and [Hici'emi](#). It will then be activated to conduct the following actions:

1. It will use the high-powered modified [Transuniversal Teleportation Drive](#) to temporarily relocate all three star systems and their physical components to an empty region of space in another universe. It will use the trans-universal barrier as a filter for exotic radiations and other harmful debris.
2. It will then anneal the space of the region by using a controlled breach in the space-time continuum created by the temporal attunement system to bring the structure of real space to a pre-[Project Checkout](#) state. Which will restore the central stars of the star systems and eliminate the black holes that have been formed.
3. It will then use the high-powered modified [Transuniversal Teleportation Drive](#) to recall the planets and other stellar bodies. As they are brought across the trans-universal barrier the same temporal attunement system restores those bodies back to their pre-[Project Checkout](#) state.
4. Once [Lor](#), [Nyli](#), and [Hici'emi](#) are restored Akelost's Gift will self destruct ensuring its technology and knowledge cannot be utilized again or re-engineered into some kind of weapon.

## OOO Notes

[Andrew](#) created this article on 2022/11/07 03:47.

This article was approved by [Wes](#) on 2023/08/31<sup>3)</sup>.

- This is a plot device, discussed by [Andrew](#), [Sageshooter](#) and [Wes](#).

1)

This is considered a plot device. The writer of this device is a roleplayer, not a physics genius.

<sup>2)</sup>
