

LCP-9 "Vigilant" Civilian Sidearm

The LCP-9 is a pistol.

History:

After the glorious history of Nepleslian law enforcement began to take a slight curve, IWI came to be as a sort of “private contractor” for the weapons world. First commissioned by the Los Apagos Police Department to build a [portable law enforcement weapons system](#), the quick success of the Porcupine encouraged another law enforcement sector to commission IWI to build them a good multi-purpose pistol.

Thusly, the Vigilant was born.
