- Monomolecular edge: +100KS
- Massive: 2x base price
- Retractable: +50KS
- Booster: 100mph x 20KS

Total cost: 2840KS

Description: The Rapid Fang is a retractable, rocket-assisted spear forged from Durandium Alloy with some golden inlay for aesthetic purposes, the tip is made out of Transparent Zesuaium. While suitable for slashing, the Rapid Fang excels at thrusting. Usable with both hands or in combination with a shield, and even as a thrown weapon as a last resort. The back-mounted booster assists in the weapon's armor-piercing ability.
