

Materials

In addition to real-life materials, Star Army has a number of fictional elements and compounds that have become part of the lore over the years. Below you can find all of the materials unique to the SARPiverse as well as other materials if they have a wiki page. The list is automatically updated and shows all articles in the *materials* namespace.

Adding Materials

When adding a new material to the setting, please don't make it basically the same as something that already exist. For example there's several starship armor materials already available.
