

# Miu

The Miu system sits in the middle of an increasingly busy crossroad of space lanes between [Yamatai](#), [Motoyoshi Colonial Sector](#), the Norian home system [Akina](#), and the [Bard Cluster](#). The capitol planet is the Miu.

Miu (美雨) means, “Beautiful Rain” [Yamataigo](#) (邪馬台語).

## History

Miu was originally colonized in [YE 28](#) under the control of the [Fifth Expeditionary Fleet](#) and protection until [YE 29](#) when the [Mishhuvurthyar](#) conquered the [Bard Cluster](#). It was then under the control of the [Mishhuvurthyar](#) until their defeat in [YE 30](#).

After the [Mishhuvurthyar](#) were driven off the system was once again under the control of the [Yamatai Star Empire](#) . The system was under the control of the [Fourth Fleet](#), and it was re-colonized primarily by

former [Yamatai Star Empire](#) soldiers and members of the [Shimizu Clan](#). It was named after (then) Empress [Ketsurui-Motoyoshi Katsuko](#) and hime [Taisho Shimizu-Motoyoshi Akina](#) ([清水本吉明菜](#))'s daughter [Shimizu-Motoyoshi Miu](#).

In [YE 32](#) the colony was abandoned when the [NMX](#) forced the [Fourth Fleet](#) to have to consolidate its holdings after launching a major offensive. Prior to ceding the system, the [Fourth Fleet](#) damaged or destroyed all structures and equipment so they could not be used by the enemy.

In [YE 35](#) the [Scientific Studies Service \(SSS\)](#) deployed a Ke-P6-01a [Bisen Lighthouse](#) on the surface of the planet at the request of the [Star Army of Yamatai](#).

In [YE 36](#), Miu was restored to the list of planets claimed by Yamatai because of its position on the path to Jiyuu and the Outer Colonies, following the signing of the [Defense Arrangement Treaty \(of the\) Alliance of Signatory States](#).

In [YE 41](#), mercenaries working for the [Interstellar Kingdom Of Kuvexia](#) killed all Yamataian forces in this star system, as part of the [Kuvexian Invasion of YE 41](#) during the [Kuvexian War](#). The attacked current during the [Year-End Holidays](#)<sup>1</sup>.

In [YE 42](#), the [Yamatai Star Empire](#) and the [Shimizu Clan](#) began repairing the impact of conflicts on world by erasing (Kuvexian) or reusing and refurbishing (Yamatai) the remnants of the fighting. This included environmental adjustments, which precluded large settlement for two years.

In late [YE 43](#), The derelict and inoperable [Bisen Lighthouse](#) was repaired and recalled to the [Scientific Studies Service \(SSS\)](#) for refurbishment and redeployment.

In [YE 44](#), the [Yamatai Star Empire](#) and the [Shimizu Clan](#) started to resettle and build far more expanded infrastructure than any point in the known history of the planet or system. This recognized the important strategic location both militarily and commercially the local cluster of systems held to tying the Empire together.

## Planet Miu 美雨

### Places

Edo 江戸市

Edo is where most of the population of the planet currently lives. It features three of the five current frontier starports. The city is built on a bay that encloses a fairly large body of water. It lies north of the equator. The [weather](#) is fueled by the ocean, and is warm during the Spring and Summer. It is cool, wet, and snowy in the Autumn and Winter. Construction is almost always ongoing to meet and encourage demand for housing, commercial, and industrial space.

Places of note to visit:

- Yamataibashi - A large, artistic bridge in the center of the city's commercial district. Mass transit and foot traffic can cross over it.
- Memorial Complex - Located near the administrative building, the main feature is a museum. There are several memorials both inside and outside designed by different artists. Ones often visited include the Miu Kuvexian War installation, and the Taiie pavilion.
- Shimizu Fleet Yards Engineering Laboratory
- Katsu Katsu - A fast casual dining experience named after [Ketsurui-Motoyoshi Katsuko](#).
- Embassy Row - A large street that is almost exclusively occupied by consulates or embassies to deal with trade issues and good relations between their faction and Yamatai, as well as the [Shimizu Clan](#).
- Miu Natural History Museum - Dedicated to the exploration, study, and preservation of Miu's Flora and Fauna.

## Transportation

[PAINT](#) service is currently active with many routes between the Core Yamatai planets, as well as all along the space-lane to the [Motoyoshi Colonial Sector](#). The PAINT service is currently furnished by the Star

Army of Yamatai and the [Yugumo Corporation](#). They travel to one of the several [smaller starports](#) but plans for larger ones are expected.

Mass transit on the planet Miu is provided by [Shimizu Fleet Yards](#), using an [EM-K7 - Monorail](#) system. Private shuttles to unconnected outposts and areas are also available.

## People

The population of planet Miu are a majority of Nekovalkryja at around 68%, Minkan at 22%, and others at around 10%. They come mostly from the Core Yamatai systems, settled Bard Cluster worlds, or the Motoyoshi Colonial Sector.

The most populous visitors and minority residents are: Norians, Neshaten, and [Creating a Nepleslian or ID-SOL](#).

The planet Miu holds the most populous center of activity of the [Shimizu Clan](#), as it is currently the hub of operations in their territory.

## RP Opportunities

- Planet Miu sits on the biggest space lane in terms of commerce and movement between Yamatai, the Bard Cluster, and their access to the entire [Motoyoshi Colonial Sector](#). This even includes a logical stopping point on the way to places like [Kingdom of Neshaten](#).
- This is a strategic location, and sits very near to [Akina System](#), the new home of the [Norians](#).
- Come try slingshot racing around Kikonai!<sup>10)</sup>
- Business opportunities of all kinds abound, maybe you can find something rare that filtered here, before it goes to a market further to the galactic east or west?
- The planet itself hosts most types of environments, and there is interesting flora to discover!
- Help encourage settlement and infrastructure building of the Empire with tried and true methods or innovation.
- A large memorial and monument complex is dedicated to violent history of the system and world.

## Local Rumors

- The rusty desert planet Tagami is said to have above-average resources in the mountains and even beneath the sands!
- On planet Miu, locals tell visitors the former sites of great battles are haunted by the dead.

- [Shimizu Fleet Yards](#) plans to move their corporate headquarters here, to better facilitate ties with partners inside and outside Yamatai.
- The Shimizu Clan has a great influence on local politics, given many residents serve or served with the [Fifth Expeditionary Fleet](#), [Fourth Fleet](#), and [First Expeditionary Fleet](#). This is in addition to clan associates and members living here.
