

# New Belfast

New Belfast is a terrestrial world discovered by the [DION](#) in [YE 34](#).

New Belfast is a icy world with three major continents and one large ocean: The Cobalt Sea. The Cobalt sea stays unfrozen due to its high salt content

The planet is rich in raw materials such as irons and other silicates.

## Physics

Type	Three Continents, a few small islands, single ocean.

Density	5.08 g/cm <sup>3</sup>
Gravity	.83 G
Composition	20.8% iron, 32.7% oxygen, 3.25% nickel, 18.6% silicon, 13.6% other metals, trace other elements
Period	4.79 standard years)
Atmosphere	Oxygen and Nitrogen rich
Special	Constantly frozen

## Climate

<b>Climate Types</b>	Cold year round
<b>Flora Density</b>	None
<b>Fauna Density</b>	light sea life, including fish and large predators; Few land creatures, mostly docile
<b>Length of Day</b>	Twenty nine hours, fifteen minutes
<b>Average Temperature</b>	Temperature on the planet ranges from -52 to -36 degrees celsius depending on the season and location.

## Population

New Belfast is primarily made up of Neplesians.

<b>Capital</b>	Icefall
<b>Demographics</b>	Neplesians, ID-SOLs, Geshrin, visiting aliens, NSN personnel

## Surface Structures

- 5 Large Towns: Icefall (Pop.: 300,000)/ Snowbridge (Pop.: 125,000)/ Coldwater (Pop.: 76,890)/ Snowstorm (Pop.: 60,500)/ Frost Mountain (Pop.: 23,000)

The city of Icefall is mostly located under the ice. The only buildings that are above the ice and snow are high rise skyscrapers and the star port. It is very well developed under ground.

## Cultural Information

As a new colony, the colonists have brought their own cultures from their home planets. This makes the planet typically Neplesian as the majority are drawn from Nepleslia and other core worlds suffering from overpopulation.

## Political Information

Due to New Belfast's location in the system, it is frequented by pirates and criminals alike. The citizens of the planet are loyal to Nepleslia, but struggle to keep the peace with all the criminals who have taken refuge there.
