

Species

This list is meant to be a comprehensive list of all species in the [SARPiverse](#) and is intended for reference purposes. It is sorted into playable species, non-playable species, and it also has a list of all pages in the species namespace (some species might not be tagged as playable or non-playable yet).

Playable Species

Here's a list of species that staff have marked as being playable. Playable means you can make player characters of these species types. Feel free to ask [Wes](#) if you have any questions.
