

Fort Jal

Fort Jal was a [Star Army of Yamatai](#) base located on planet Miu I in the [Miu System](#). It was named after [Taisho Araiah Jal](#). Currently, Fort Jal is commanded by [Taisa](#) Brusi Thidrandason.

The closest functional facility to Fort Jal was a Ke-P6-01a [Bisen Lighthouse](#) that the [Scientific Studies Service \(SSS\)](#) deployed in [YE 35](#). The old colonies have been reclaimed or removed.

History

Fort Jal was built on the side of a large lake in [YE 36](#) in a zone where the temperature was fairly stable.

In [YE 41](#), a group of mercenaries working for the [Interstellar Kingdom Of Kuvexia](#) launched a surprise attack on the base and killed all of the soldiers stationed there as part of the [Kuvexian Invasion of YE 41](#) during the [Kuvexian War](#). The attacked current during the [Year-End Holidays](#). The Fort was looted and left to rust¹⁾.

In [YE 43](#), in preparation for a much more robust imperial presence, the base was safely dismantled; however, a new base has yet to be built.
