

Star Army Butt Pack, Type 29

The Star Army Butt Pack is a padded sack primarily designed to attach at the waist to power armors like the [Ke-M2 "Mindy" Series of Power Armor](#). It contains a large central compartment (with a hanging pouch) and two cushioned side pockets, along with a flat rear zippered compartment. The butt pack need not be used on power armor; it can also be easily attached to soldiers' load-bearing vests. The pack is also extremely heat and radiation-resistant as to survive the radiation created by aether sabers and teleportation. It was first used in [YE 29](#).

Packs are available from [Ketsurui Zaibatsu](#) in black, dark gray, [Star Army Cadet Blue](#), white (from [YE 45](#)) and [RIKUPAT](#) (from [YE 37](#) onward). Some older butt packs may have the "[Multi-Net](#)" [Camouflage Pattern](#). Butt packs are always issued with a matching waterproof bag. While the butt pack itself has a water resistant coating, it is not waterproof and won't keep water out if submerged.

Typically, the butt pack is used to carry a [Type 31A Survival Kit](#) or a [Type 31C Medical Kit](#), along with a spare [uniform](#) or [Environmental Suit](#).
