

# CFWEP Package

Pilot Clothing, Food, Water, Exploration and Protection Package

In [YE 28](#), acting on a request from the [Fifth Expeditionary Fleet](#), designers at [Ketsurui Fleet Yards](#) began working on a utility pack for pilots assigned on planet-bound missions. With the need for clothing, nutrition, and protection for missions that required soldiers to leave their armors, KFY designers came up with a small inventory and a multi-faceted design for packaging it that would be compatible with the many in-use armors (Everything except Lamia M1) within the bounds of size and weight allowances.
