

WickedArms TA-13 Medical Kit

The Star Army Medical Kit (also known as the MedCo Medpac and the WickedArms TA-13) is an emergency first aid/field surgery kit that was carried in most [Star Army](#) vessels from [YE 21](#) until [YE 31](#) when it was supplanted by the [Star Army Medical Kit, Type 31](#). Because it was heavily mass-produced by the trillions, it is still commonly found throughout known space, especially in older Yamataian military ships and in military surplus stores, where it is sold for 39.97 KS.
