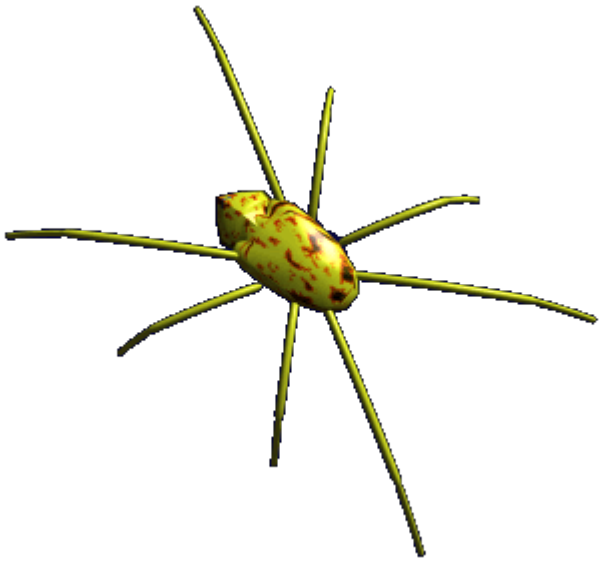
Ke-O9-3a Arachnid T.O.R.I.

The Ke-O9-3a Arachnid T.O.R.I. device was created as part of the Ke-O9 T.O.R.I. in YE 32 to assist Star Army Intelligence to assist in security and surveillance.

The Arachnid model is designed to look like a common garden spider.

Details

Organizations using: Star Army of Yamatai, Yamatai National Police Type: Arachnid Surveillance Drone Nomenclature: Ke-O9-3a Designers: Ketsurui Zaibatsu Research and Development teams, Star Army Research Administration Manufacturers: Ketsurui Zaibatsu, Star Army of Yamatai Entered service: YE 32



Dimensions: 19 to 28 mm (0.75-1.1“)

The Arachnid comes in a variety of color patterns, and is patterned after the female of the species which is larger.

Like their living counterparts the Arachnid is extremely sensitive to vibrations. Each of its legs has a sensor at the tip just for vibration detection. The vision of the Arachnid is not multifaceted, but to determine that a person would have to be very close to the drone.
