Ke-H5-W3200 "Kyouheki" Defense Platforms

The Kyouheki (🔊 *Parapet)* Defense Platforms are part of the *Ke-H5-1a "Guriddo" Defense System*, and came into service in YE 32. This component of the Defense System received an upgrade in the form of the Ke-H5-W4200 "Kyouheki" Defense Platforms in YE 42

About the Kyouheki Defense Platforms

The Kyouheki Defense Platforms primary purpose is to maintain and control the *Ke-H5-W3201 "Suzumebachi" Attack Drones*. The secondary purpose is to provide tactical information and additional firepower in defense of the system.

History

The *Kyouheki Defense Platforms* were designed to be the last line of defense for a star system. Positioned to literally draw a line and make any enemy pay dearly for attempting to cross it. During the development phase Ketsurui Fleet Yards tried making one with two of the *Ke-S3-W3020 Main Weapon Array*s, but the resulting forces when firing both simultaneously tore the prototype apart. For that reason they went with a single and added four *Type 31 Heavy Anti-Starship Turret*s to maximize the firepower. Typically they are positioned so that they can work together with other platforms to catch enemy vessels in a crossfire.

Appearance

The *Kyouheki Defense Platforms* are in the traditional Star Army of Yamatai blue, with the Star Army Hinomaru emblazoned on the top. Prominently visible in the front is the distinctive *Ke-S3-W3020 Main Weapon Array* made famous by the *Plumeria-class (2D) Medium Gunship*. The *Kyouheki* is a squat and bulky craft at first glance. It is not made for maneuvering but to deliver the most firepower available.

Statistical Data

The *Kyouheki Defense Platforms* are produced to the following specifications:

General

- **Class:** Kyouheki
- **Nomenclature:** Ke-H5-W3200
- **Type:** Defense Platform
- **Designers:** Ketsurui Fleet Yards, Takumi
- **Manufacturer:** Ketsurui Fleet Yards
- **Organizations using this ship:** Star Army of Yamatai

Dimensions

- **Length:** 200 meters (656 feet)
- **Width:** 169.18 meters (554.91 feet)
- **Height:** 38.45 meters (126.11 feet)

- **Decks:** 9 (4 meters)

Crew and Accommodations

- **Crew:** Seven operators are recommended, but only one is required.
- **Maximum Capacity:** There are accommodations for thirty crew members.

Propulsion and Range

Speeds

The *Kyouheki* is not a fast vessel.

- Sublight Engines: .2c (~59,958 kilometers per second) (~37,256 miles per second)
- Hyperspace Drive: 262,980c (0.50 ly/m) Used for delivery.

Damage Capacity

See *Damage Rating (Version 3)* for an explanation of the damage system.

- Hull: 20
- Shields: 20 (Threshold 2)

Inside the Kyouheki Platform

Conduits and Passageways

- Standard Star Army Airlock
- Standard Star Army Maintenance Conduits
- Standard Star Army Zero-Gravity Passageways

Control Centers

- Traditional Small Starship Bridge (6 stations + captain)

Living and Dining Areas

- 4 Standard Star Army Crew Cabin (officers)
- 13 Standard Star Army Crew Cabin (Enlisted)
- Standard Star Army Crew Lounge
- Standard Star Army Crew Baths
- Standard Star Army Crew Shower
- Standard Star Army Toilet
- Standard Star Army Dining Hall
- Standard Star Army Galley
- Standard Star Army Laundry Room

Science and Medical Areas

- Sakura-type Medical Laboratory

Storage and Maintenance Areas

- Standard Star Army Cargo Area
- Standard Damage Control Station
- Standard Star Army Armory
- Standard Star Army Magazine
- Standard Star Army Shuttle Bay

Drone Bay

Located in the rear of the Kyouheki Platform, the drone bay shares the same entrance as the shuttle bay. This is where the *Ke-H5-W3201 "Suzumebachi" Attack Drones* are brought aboard for maintenance and reloading.

DRONE & SHUTTLE BAY

Systems Rooms

- Standard Computer Room
- Standard Star Army Engineering Bay
- Standard Star Army Fabrication Area

Morale related

- Star Army Ship's Store

Kyouheki Platform Systems

Armored Hull

The *Kyouheki Platform* has an armored hull constructed on a Durandium Alloy frame, and covered in .5 meter plates of Yamataium.

STAR ARMY - https://wiki.stararmy.com/

Computer and Sensors

The *Kyouheki Platform* uses a MEGAMI for avionics and computer control and is equipped with a Psionic Signal Controller.

Electronic Counter Measures

The *Kyouheki Platform* is equipped with a Type 31 Electronic Warfare Suite to better enable it to combat the enemy.

Emergency Systems

The *Kyouheki Platform* has all the Star Army Standard Starship Emergency Systems.

Escape Pods

The *Kyouheki Platform* has six Star Army Escape Pod, Type 30s.

Life Support Systems

The *Kyouheki Platform* has Star Army Standard Life Support Systems.

Power Generation

The *Kyouheki Platform* has a Aether Generator for its primary power. It uses a pair of fusion reactors for backup power.
Propulsion

- The *Kyouheki Platform* uses four Turbo Aether Plasma Drive for its STL propulsion.
- It has a Ketsurui Fleet Yards hyperspace fold drive for delivering the station to destination systems. It is not recommended to be used during combat.

Soul Savior Pod

The *Kyouheki Platform* has a Soul Savior Pod for mental backups.

Shields

The *Kyouheki Platform* uses a [Combined Field System](#) for its protection.

Weapon Systems

- 1 [Ke-S3-W3020 Main Weapon Array](#) (Tiers 13 through 15, Light Anti-Capital Ship through Heavy Anti-Capital Ship (🔧 **Fix Me!**: Staff needs to determine which))
- 4 [Type 31 Heavy Anti-Starship Turret](#) (Tier 12, Heavy Anti-Starship)
- 2 [Heavy Dual Anti-Starship Gun Turrets](#) (Tier 11, Medium Anti-Starship)
- 8 [Heavy Quad Anti-Mecha Cannons](#) Tier 9, Heavy Anti-Mecha)
