

YSS Plumeria

YSS Plumeria, NG-X1-390, was a [Plumeria-class \(2D\) Medium Gunship](#) built at [Gemini Star Fortress](#) by [Ketsurui Fleet Yards](#) in [YE 29](#) for the [Star Army of Yamatai's First Expeditionary Fleet](#). It was captained by [Taisa Ketsurui Hanako](#) after the destruction of her previous starship, the [YSS Sakura](#). It was destroyed by [Mishhuvurthar](#) less than a month after its construction, and was replaced by the [YSS Elfin Princess](#).

Plumeria's History

After the Second Battle of Urghflau, the [Star Army of Yamatai's First Expeditionary Fleet](#) was left in shambles. To replace lost ships, new ships were immediately ordered from [Ketsurui Fleet Yards](#) via the [Nataria Fleet Depot](#). The Plumeria was one of these ships, built at Gemini Star Fortress. After installation of some new systems, the Plumeria stocked up at [Nataria](#) and set off for her first mission, a daring and risky attack on [Sfrarabla Mishhuvurthar Xhrafuklurp \(SMX\)](#) headquarters at [Hukka](#). After a frightening escape, they returned home to take it easy for a while. That didn't last long.

Just days later, the [Sfrarabla Mishhuvurthar Xhrafuklurp \(SMX\)](#), enraged by the Plumeria's attack, consolidated several battle groups into a large four-wave force (which included a [Shlarvasseroth-class Flagship](#)) and attacked [Tatiana](#) and [Nataria](#). The Plumeria took moderate damage but was able to last to the end of the fight. Seeking [Melisson](#) (who had suggested ways to defeat the SMX flagship during the battle), [Hanako](#) contacted [YC-28](#) and set course for [Democratic Imperium of Nepleslia](#), [Elysian Celestial Empire](#), and later a nebula 40 light years to the north, where the ship and Irim-class YS-60 were destroyed in combat by [Melisson](#). The Plumeria's survivors were retrieved by YC-28.
