

YSS Sakishima

The *YSS Sakishima*, ND-S10-577, was a [Chiaki-class \(1A\) Escort Destroyer](#) created and assigned in early [YE 35](#) to the [Tenth Fleet](#) of the [Star Army of Yamatai](#) and served most in the turbulent [Yugumo Cluster](#). In [YE 41](#) she and her other sister ships of DESRON 2 were refit to the new [Chiaki-class \(1B\) Escort Destroyer](#) standard at [Leo Star Fortress](#).

The core IES computer systems of the *Sakishima* have been upgraded to retain the veteran [MEGAMI](#) AI named [Jeeves](#), who usually appears as a busty, blonde, elf-eared female clad in a traditional black butler's suit. She has been known to use her avatar body frequently to intermingle amongst, and assist the crew directly.

It also has several customizations that were preserved in the refit, namely a small traditional [onsen](#) and a [still](#) that draws heat off engineering. Please see [Modifications and Interiors](#) for more details.

This article is about the ship. For plot information, see [YSS Sakishima Plot](#).
