

Star Army Ke-K3 Forklift

The Ke-K3 is a forklift used by the [Star Army of Yamatai](#), [Yamatai Star Empire](#), and various civilian businesses. It is designed to lift palettes of cargo (not [Standard Starship Cargo Containers](#) except the SSCC-Small). The Ke-K3 has a lift capacity of 2.5 metric tons (about 5,500 lbs).

The Ke-K3 can run on electric power via a battery, hydrogen fuel cells, or an optional micro aether generator similar to those in power armor such as the [Ke-M2-4 Series "Mindy" Armor](#). It comes with a transmission suspension to reduce noise and vibrations, 85-degree rear-axle steering, and high-performance immersion brakes. It has a comfortable seat, forward-facing LED lights, and tail lights.

Price: 2,500 [KS](#)

History

This particular model has been available since [YE 39](#) but similar models have been available as long as anyone can remember.

In [YE 44](#), the Ke-K3 passed its 5-year equipment review with no issues and the Star Army committed to using them until at least [YE 49](#).

OOC Notes

This page was originally created on 2017/05/07 12:24 by [Wes](#).
