

ISS Evenstar (Yoi-no-Myōjō)

The ISS Evenstar (Yoi-no-Myōjō) is a [Tanya-Class Expeditionary Heavy Cruiser](#) which is owned by the [Motoyoshi Clan](#) and is operated as part of the [Takeda Fleet](#) by [Yugumo Merchant Spacy](#). It was launched in late [YE 44](#). It is the cynosure ship in the [Motoyoshi Rising](#) plot.

History and Background

The ISS Evenstar (Yoi-no-Myōjō) was commissioned in [YE 43](#), but did not get cleared for active duty until late in [YE 44](#) due to priority in the [Yugumo Fleetworks](#). The ship serves as the flagship of the [Motoyoshi Clan](#) and is part of the [Yugumo Merchant Spacy](#). In [YE 45](#), it was decided that the newly promoted [Shipmaster Motoyoshi Eidan](#), the [Motoyoshi Clan](#) prodigy and favorite of [Ketsurui-Motoyoshi Katsuko](#) would take command. His crew that was trained by [Takagawa Hitomi](#) would be transferred from the [ISS Shiori](#) along with him.¹⁾

Uniforms and Standards for the Evenstar Crew

Uniforms

The officers and crew are part of the [Yugumo Merchant Spacy](#) and wear the [Type 43 Yugumo Corporation Uniforms](#) with the [black beret](#) bearing the ship's mission patch on the flash that is [shipboard duty issue](#), All uniforms and armor bear the [Takeda Fleet](#) logo on the right shoulder with their [Merchant Spacy Patch](#) beneath it, and the ship's mission patch on the left, with the 紺碧軍団 Konpeki Gundan (Azure Legion) badge beneath it. Their [rank pin](#) is displayed on the left side of their uniform collar.

The [Type 43 Yugumo Corporation Uniforms](#) worn aboard the Evenstar, like those on the [ISS Shiori](#) before, use a different color scheme than standard. Rather than the purple one-piece dress or light charcoal jacket with darker trousers, both uniforms are a deep, dark charcoal that is nearly black even under close inspection, and feature gold trim. [Coveralls](#) and [security response armor](#) are also dark charcoal and have the same patches and insignia. [Flight suits](#) are dark charcoal with dark purple panels and gold trim.

Advanced Education Program

In YE 44, when [Takagawa Hitomi](#), a veteran educator, was asked to rejoin the [ISS Shiori](#), the decision was made among her, [Motoyoshi-Ieyasu Taro](#), and [Ketsurui-Motoyoshi Katsuko](#) to devise an advanced curriculum with real accreditation for [Motoyoshi Eidan](#) and the hand-picked prodigies who would accompany him. In YE 45, when the [Azure Legion](#) was formed aboard the Evenstar, the program was continued there.

In association with the [Colonial Sector University System](#), the decision was made to create an experimental pilot program for exceptional youth in their last years of secondary education or first years of tertiary education. The initiative is under the auspices of a consortium consisting of [Tokyo University](#) and the [Scientific Studies Service Gakuin Academy](#), with support from the [Kyouosou Institute of Technology](#), the [Tsubomi School System](#), the [Kikyō Scouts](#), the [Shima Oceanographic Institute](#), and the [Jiyuu University for Agricultural Studies](#).

The ISS Evenstar is considered a [Kyouosou Institute of Technology Remote Campus](#) and [SSS - Satellite Campus](#), as well as a campus of the [Colonial Sector University System](#) for purposes of credit recognition and transferability.

Kikyō Scouts Troop

The ISS Evenstar is a functioning [troop](#) of the [Kikyō Scouts](#) with [Takagawa Hitomi](#) as its [leader](#). In YE 45, when the [Azure Legion](#) was formed aboard the Evenstar, the troop was transferred along with them.

The Troop's number is 1712, after the [grid sector](#) of the [Taie](#) system, colonized in [YE 28](#) by the [Fifth Expeditionary Fleet](#) under its commander [Ketsurui-Motoyoshi Katsuko](#), grandmother of [Motoyoshi Eidan](#). The star was destroyed during the [First Mishhuvurthyar War](#) in [YE 29](#) by the [Sfrarabla Mishhuvurthyar Xhrafuklurp \(SMX\)](#), leaving behind the [Taie Nebula](#). In memory of the capital of the colony, [Seijin no Umi, Port City of Taie](#) on [Taie IV](#), the troop's mascot is the "Sea Saints," based on the [Trade](#) translation of the [Yamataigo](#) name: "Saint of the Sea."

The troop is known as Troop 1712 "Sea Saints" among the [Kikyō Scouts](#).

Ship's Avatar

The [avatar](#) of the ship's immensely powerful [KAIMON Super-Gate](#) is named “Lucia” and appears as an ethereal [Yamataian](#) woman with a deep dusky skin-tone, and brilliant golden hair and eyes that shine with their own radiant, stellar luminescence. She is often wearing flowing robes that swirl with deep blues, purples, greens, and black like nebulae upon the void of space, and spattered with shining silver, gold, pale blue, and the occasional red spots like the myriad stars themselves. She has an unfailingly wise, motherly, judicious, graceful, and noble aspect to her that permeates every action and expression and word of her warm, rich, sonorant voice.

NPC Ship's Crew

Third Officer Motoyoshi Ponyo - A burly, deep-voiced [Minkan](#) woman, originally of the [Anisa System](#). Her parents were adopted into the clan during its first decade of existence. She was raised on a remote resource-extraction homestead, and sometimes uses strange or 'folksy' aphorisms. She is loyal to Clan and Empire, and expects a high degree of professionalism and effort from her subordinates. Her text color is Margarita, b0c24a. This NPC was introduced in “What in the Void-Filled Hells?”³⁾

[Senchō-no-joshu](#) Ialnys Cienori - A [Norian](#) male with an athletic build, black hair and golden eyes. He was born on Noria and much like [Yuki Inihara](#) lost his parents, albeit both during the [Umarian War](#). This is something they have bonded over in addition to their shared passion of the arts, though he is more apt to sit for paintings instead of creating them himself. He is loyal to [Tsenlan](#) and the [Motoyoshi Clan](#). This NPC was introduced in “What in the Void-Filled Hells?”⁴⁾

Orchid Fleet

The vessels that are docked to, hangared in, and accompany the Evenstar are known as Orchid Fleet.

The four frigate docks on the [docking ring](#) are usually occupied by the [Misha-Class Explorer companion ships](#). Their shuttle bays each have one [Taka-Class Shuttle](#). All of them, and their shuttles, are fully equipped with [ELECTRA](#), [Sorakagami Aerospace Operations Suite](#) and [Umikagami Subsurface Operations Suite](#).

Escort Flotilla

Besides the docked frigates, the *Evenstar* is generally escorted by 8 [Yūgure-class Merchant Destroyer](#), Their shuttle bays have one [Mōkin-Class Patrol Craft](#) and two [Moza-Class Starfighter](#). All of them, and their small craft, are fully-equipped with [ELECTRA](#), [Sorakagami Aerospace Operations Suite](#) and [Umikagami Subsurface Operations Suite](#).

Support Ships

For indefinite-duration ops, not even the mighty [Tanya-Class Expeditionary Heavy Cruiser](#) can go entirely unsupported. The [Daikoku-Class Agricultural Ship](#), and its variants are the backbone, keeping the *Evenstar* well-supplied with food, fresh water, and extended refining and fabrication facilities.
