

NSS Melissa Kenni

The NSS Melissa Kenni was a Nepleslian [Na-AC-02a Shaika Assault Carrier](#) deployed on the [Kennewes Offensive](#) in late [YE 29](#). During this action, it saw heavy fighting and was badly damaged. Despite its wounds, the *Melissa Kenni* managed to limp back to Nepleslia where it has sat in dry dock in various stages of repair.

With the [YE 35](#) refit of the Shaika-class, the *Melissa Kenni* received more attention than it had seen since Kennewes. Within a month, the ship went from a mess of jumbled parts into a spaceworthy warship. It was promptly transferred to [4th Fleet](#) when its trials were completed. There, it acted as the First Carrier Group's flagship under [Rear Admiral billie haylen](#).
