

# System P1-5 "Area 52"

The P1-5 star system, named after its foremost important planet “Area 52”, contains four planets, none of them which are terrestrial or even close to habitable. While planets Pasco I, II and IV are fairly ripe with iron, silicone and, in Pasco IV's case, copper, Pasco III is a barren planet, with very little in the ways of obtainable resources. As a result, [Nepleslian Arms and Munitions](#) claimed the seemingly useless barren waste planet and has put it to more beneficial use; testing high-grade explosives and warheads in planetary conditions, which in turn gave rise to the name for Pasco III, Area 52. Because of the military presence around Area 52, the Tienshinhan-class Star Fortress over the planet is almost always occupied by both NAM personnel and military benefactors, as well as several construction yards and industrial craft commissioned by [Nepleslian Arms and Munitions](#) to assist in testing and production processes.

## System description

Sun Type	Red Dwarf
Celestial Bodies	3 Rock Planets, 1 Ice Planet, 1 Asteroid Belt
Current Occupants	<a href="#">Nepleslian Arms and Munitions</a>

## System Military Assets

- 025 Starbases
- 050 [Rook platforms](#)
- 001 Dreadnought squadron
- 002 Battlecruiser squadrons
- 002 [Cruiser](#) squadrons
- 005 [Destroyer](#) squadrons

## Barren Waste World: Area 52

### Physics

Type	Rock Planet, Barren landscape
Radius	8000km
Surface Area	91,002,345 km <sup>2</sup>
Land Area	91,002,345 km <sup>2</sup>
Mass	5,600,321, 034 kg
Density	3.56
Composition	Rock, sand, dirt. Large underground aquifers allow for limited habitation

### Climate

Climate Types	Barren waste, dust storms on occasion
---------------	---------------------------------------

Flora Density	None whatsoever
Fauna Density	None whatsoever
Length of Day	Seventeen hours
Average Temperature	Almost always -10 and 40 degrees Fahrenheit. No natural moisture.

Population

While most of the population resides in the safety of the orbital facilities above Area 52, there are several “Safe Zones” present on the surface for operations that need to be grounded. The most prominent of these safe zones is Site 8, which is located almost directly under the planet's orbital defense platforms. Site 8 contains mostly living quarters and a few commercial areas for select organizations, and acts as a transport hub to the other safe-zone sites, as well as the orbital facilities via starport.

Capitol	Site 8
Demographics	<a href="#">NAM Personnel</a> , <a href="#">SMoDIN Personnel</a>
Map Locations	
Map to Use	Kikyo Sector
Map Display Name	Area 52
Map Coordinates	1334,1878
Map Importance	Landmark
Map Marker	
Map Tooltip Content	P1-5
Show label?	yes
Marker Anchor	Bottom Center
Places of the SARPiverse	
Place Categories	star system
