

ASE-006

A rather unremarkable solar system located in the 'east' of region 1817¹⁾ of the Kikyo Sector, ASE-006 isn't even remarkable enough to bother with a proper name. However, its important position on the Two-Jaspis Spaceway has made it strategically important enough to warrant its inclusion into the Abwehran Star Empire as a way point station for trade, colonization, and military vessels.

Star System Data

ASE-006 Prime

- Type: M2 V Red Dwarf
- Radius: 2.98×10^5 km (0.43 x sol)
- Mass: 7.35×10^{29} km (0.37 x sol)
- Temperature: 3000 K
- Luminosity: 1.82×10^{25} W (0.05 x sol)

Planetary Data

Due to an unknown incident, ASE-006 is void of natural celestial bodies and only contains its star and artificial stations made by the Abwehrans.

Artificial Satellites

Station	Station Type	Purpose
Waypoint Station	Bulwark-class Military Outpost	Trade Lane Patrol Headquarters
Waypoint Trade	Harbor-class Trade Station	Commerce Way point and Resupply Station
Cloud Harbor	Cloud Harbor	

Export / Import Data

Due to the lack of celestial features, ASE-006 is not used for exporting goods. Instead, the majority of ASE-006's economy is from service-based industries in order to import water resources.

Rumors and Events

Rumors and Events that have circulated or happened revolving around the system.

YE 35

- The Amateur Gravball League plans on holding their First Quarter Tournament at Waypoint Trade. The Grand Prize is 10 million Abwehran Credits ²⁾ and get the Arena named after the Team's Captain. However, the team must be registered with the League at the Waypoint Gravball Arena.
- The great mystery of ASE-006 is its lack of stellar debris. Some scientist theorize that ASE-006 may at one time have had some sort of celestial bodies orbiting it, but it had been stripped of them long ago. The main question seems to be: *How was it stripped?*

YE 39

- A [mysterious station](#) has been spotted in the system. Public transportation is not allowed there, and there is a frequent military presence. [Waypoint Trade](#) makes regular shipments there as well.
