

Husya System

The Husya system is located West of [noua](#) and Northwest of [Shara](#) in the [gartagen_cluster](#). It is home to one habitable planet, [Husya II](#).

History

The Husya star system was discovered in [YE_33](#) by the Gartagen union and has become some what of a fortress world for the union since. With the discovery of the ancient military base on the world, the scientific community on Shara has constructed labratories. The system over all has significant resources deposits, and is has been converted to become the new head quarters of the [Gartagen Union Solar Navy](#). Four new [Muskosa Shipyard](#) have been created in system to take advantage of the mining operations being set up, as well as construction on a [Casheian Star Fortress](#).
