

# Jaspis III

A large world with high amounts of radiation in comparison to Abwehrans norms<sup>1)</sup>, Jaspis III holds a few mining facilities over all. However, radiation levels are quite fine for [Freespacers](#).

## Population Statistics

Due to high levels of radiation on the planet, the population of the facility is kept to a minimum and rotated off world monthly. Facilities on Jaspis III are expensive due to the high amounts of lead used in their construction as well as the thickness of the facility walls.
