

# EX-1 Keren

Keren is an important adopted homeworld of the [Elysians](#). It is located in grid 1016 on the [Kikyo Sector](#) map.

## History

When the central government attempted to colonize this system in [YE 30](#), they were surprised to discover that there were already 144,000 Elysians living on Keren. These Elysians had secretly moved to Keren during the Elysian exodus from Yamatai to Veritas around and before [YE 16](#).

In [YE 34](#), the [Star Army of Yamatai](#) built the [Elysian Naval Arsenal](#) on Keren III.

The [Yamatai Star Empire](#) placed a global communications network of [Emrys Satellites](#) into orbit in [YE 36](#). Civilian cargo shipping is primarily provided by [Trinary Star Shipping](#), which has storefronts in all of the planet's major cities.
