

Mevar

Mevar is a star system that is part of the [Yamatai Star Empire](#). Less than 19 light-years away from the [Yamatai Star System](#), it is considered part of the [Bard Cluster](#). Mevar has a population of about 325,000.

History

Mevar was originally a colony world of the [Qel'noran](#). In [YE 26](#), when a Qel'noran rebellion resulted in a retaliatory strike by the [Star Army of Yamatai](#), the planet was evacuated and left mostly abandoned until it was re-colonized under the control of the [Fifth Expeditionary Fleet](#).

In [YE 29](#), the [Mishhuvurthyar](#) conquered the [Bard Cluster](#), keeping Mevar under their control until their defeat by Yamatai in [YE 30](#). Mevar was then released to the [Yamatai Star Empire](#)'s control as part of the [Intergalactic Armistice Agreement of YE 30 \(IAA\)](#) signed at the [International Relations Conference of YE 30](#).

After the [Mishhuvurthyar](#) were driven off the system was once again under the control of the [Yamatai Star Empire](#). The system was under the control of the [Fourth Fleet](#), and it was re-colonized primarily by former [Yamatai Star Empire](#) soldiers. After its reclamation, Mevar was designated to be an industrial world to support the [Fourth Fleet](#).

In [YE 32](#) the colony was expanded by an influx of colonists from the outer planets of the [Bard Cluster](#). The [Fourth Fleet](#) cannibalized materials and equipment from their damaged ships and created a fort on the planet and stationed soldiers on the planet. The [Fourth Fleet](#) assisted the planet's colonists to

develop militias and equipped them with obsolete/surplus equipment to allow them to defend themselves.

In [YE 33](#) the [Fourth Fleet](#) deployed [4SF Standard "Guriddo" System Deployment](#) for the defense of Mevar.

The [Yamatai Star Empire](#) placed a global communications network of [Emrys Satellites](#) into orbit in [YE 36](#).

In the year [YE 37](#) [Task Force 77](#) took Mevar as their base of operations.

In [YE 38](#), [Trinary Star Shipping](#) established a storefront on Mevar.

Description

Most of the life on Mevar is limited to the thriving ocean, which covers about 50% of the surface, giving the planet's land a rocky look and the ocean a dark teal color due to heavy algae. The surface is sparsely forested and savannah. There were many sites visible from orbit where the [Mishhuvurthyar](#) were conducting massive strip mining. The surface of Mevar is also dotted with the ruins of Qel'noran villages and defensive tunnel systems, as well as the abandoned Mishhuvurthyar mining camps.
