

Scrapyard System

Scrapyard, formerly known as UX-12, was one of the [UX Series Star Systems](#) charted by [Kitsurugi Uesu](#) during his departure from Central [Yamatai](#). It is a strategic location on the outer rim of the [Ketsurui Military Sector](#).

Its single, airless planet has been appropriated for use as a scrapyard for old starships. Confiscated civilian ships are also stored here, making the system somewhat akin to a police impound lot, but for spaceships rather than cars. In [YE 32](#), a [Frontier Starport](#) was built on the surface so recycled materials could be more easily transferred. This eventually became the [Sakura Fleet Depot](#).

History

In [YE 30](#), the [UX Series Star Systems](#) were colonized and [Cosmos Star Fortress](#) was stationed near the Scrapyard system, which was referred to as UX-12. In [YE 36](#), this planet became part of the [PAINT](#) public transportation system and has a [Tenba](#) that regularly visits and provides passenger flights to [Shinjuku Starport](#) on [Hanako's World](#). The [Yamatai Star Empire](#) also placed a global communications network of [Emrys Satellites](#) into orbit that year.

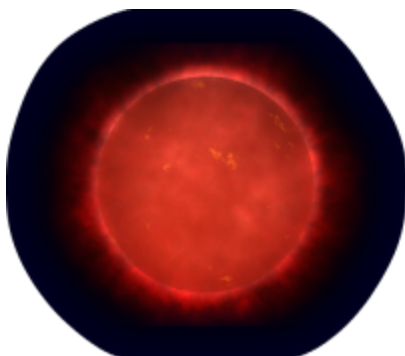

In [YE 40](#), this system was targeted by the [Kuvexian Military](#) as part of a multi-pronged invasion. The [YSS Sakura II](#) led the [Third Squadron](#) in assisting in its defense.

In [YE 42](#), during the [Kuvexian War](#), Scrapyard was attacked by the [Kuvexian Military](#) as part of the [Kuvexian Advance of YE 42^{1\)}](#). [Cosmos Star Fortress](#) was destroyed.

In 1月 [YE 43](#), Star Army and allied forces recaptured Scrapyard and [Sakura Fleet Depot](#) prior to the [Battle Of Glimmergold](#).
