

Scalar Field

A scalar (electrogravitic) field allows for the manipulation of gravity.

See: 🌐 [Scalar Field](#)

Hazardous Effects

Strong scalar fields create electrical surge comparable to an electromagnetic pulse, but arising everywhere where gravity is effective (almost anywhere but a gravity shielded starship). This electrical surge will kill lifeforms, detonate fuels and explosives, fry electronics, combust combustibles, and vaporize ablative armor.

Less powerful scalar fields can be used as taser-like stun weapons and are used in military pistols such as the [Nekovalkyrja Service Pistol, Type 30](#).
