

Pirates on Star Army

This is a revised guide on pirates in the [SARPiverse](#). It was made in [2021](#).

About Pirates

Pirates are the best example of an [Independent](#) outlaw in the [SARPiverse](#). A pirate robs and plunders other vessels, they have a tendency to avoid the operational territories of major militaries such as [Star Army of Yamatai](#). They operate outside of the laws of the major [factions](#) and due to the high technology deployed in the [Kikyo Sector](#) have become very creative in the execution of their criminal enterprise.

In the [Kikyo Sector](#) pirates have a tendency to be unorganized, and they use the ships they capture to add to their fleet and group strength. Rarely pirates have enough money to have their own ship classes or the shipyards to build them. Oftentimes their ships are mashups and highly modified ships.

History of Pirates on Star Army

Pirates were very prevalent between [YE 30](#) and [YE 40](#) in the space which formerly belonged to the [United Outer Colonies](#). In [YE 41](#), with the presence of the [First Expeditionary Fleet](#) and the efforts of the [Yugumo Corporation](#) pirates were forced to operate more towards the deep galactic south to avoid their patrols.

The [Abwehran Star Empire](#) has an aggressive history against pirates, and due to the 10¹¹ years-long [Pirate Wars](#) most [Abwehrans](#) view Pirates as a hated enemy to be defeated, rather than common criminals. Because of this, Pirate activity is actively, and thoroughly, hunted and crushed with great impunity. Only the bravest, ignorant, or foolhardy of criminals seek to plunder the space an Abwehran Ship claims jurisdiction.

The [Iromakuanhe Astral Commonwealth](#) has many [space pirates](#) operating inside of the [Iruotl System](#).

With the end of the [Kuvexian War](#) in [YE 43](#), many [Kuvexian](#) groups remained in the [Kikyo Sector](#) after the war and resorted to piracy. It brought about a new age for pirates because many [Kuvexian](#) groups that remained had access to [Kuvexian Military](#) technology and ships. This made pirates a greater threat than ever before. These groups were known for attacking cargo convoys and lone operating ships from the [factions](#) of the [Kikyo Sector](#).

Playing A Pirate

Because of the presence of large space military forces throughout civilized space, it's critical that pirating operations are done in a very speedy fashion that prevents these forces from having enough time to respond. Secrecy is also critical, and tactics like being unpredictable, disrupting communications, and being deceptive about your identity and intentions can help.
