

Forty Below

Forty Below is a proposed [Star Army of Yamatai plot](#) to be run by [GM Locked Out](#). Its concept is “Day to day operations of the 40th Arctic Legion.” It was approved by [Wes](#) as of .

Forty below is a decentralized plot detailing the goings on of the [40th "Arctic" Legion](#).

Plot Overview

Forty Below	
Format:	Forum posts and JPs leaning more on forum posts
Pacing:	Depends on the specific thread. Generally chill

- L3 (profanity is permitted but not forced just do what feels right)
- S2 (non-explicit sexual content)
- V3 (can be super graphic if necessary but I don't plan to make a gory edge fest)

Based out of [Rikugun Base Fujiko](#), the [40th "Arctic" Legion](#) aka the Arctic Legion is the Rikugun's primer cold weather fighting force. Beyond their main fighting force of an Orbital Assault and an Air Assault brigade, the Arctic Legion has a subordinate [CSAR Squadron](#), a Century of soldiers dedicated purely to meteorology, and the Arctic Warfare Training Center. The Arctic Warfare Training Center offers mandatory courses for any Arctic Legionnaire courses that are open to any soldier who might be deploying to a cold planet like [Gashmere](#), or to any soldier who simply wants to test their skills in the frozen north.

Players are encouraged to launch their own threads and mini plots about their characters. I will be running the occasional training or exercise until there's a clear enemy on a cold weather planet for the

40th to deploy to fight and then we will run a more traditional plot around that.
