Liese Geliebte in Roleplay

Liese Geliebte is a [player character](#) played by [Aendri](#) and is currently involved in the [69th Para-Military Squad](#) plot.

Physical Characteristics

Height: 5' 11 Mass: 156 lbs / 70.8 kg Measurements: 32C-24-34 **Build and Skin Color:** Liese is built lightly, and lean, with just a hint of muscle under her pale (flesh colored) skin.

Eyes and Facial Features: Liese has a very angular face, framing her purple eyes very nicely. The angular aspect is softened a bit by her smile, but not much.

Hair Color and Style: Liese has pale blond hair, which falls straight down. She usually lets it lie flat, because she thinks it does a nice job of framing her face, and breaking up her angles a bit. It's about thirteen inches long.

Distinguishing Features: Her eyes are definitely a unique feature, as their color is rare among Abwehrans.

Psychological Characteristics

Personality: Liese is a very friendly person, which seems completely contrary to her chosen occupation of sniping. She likes talking to other people, and spending time around them, just to be around people. She is, according to the [Character Archetypes](#) a Dominant-Hedonistic personality.

She loves to have a good time, and has no problem with anyone around her knowing it, whether or not they approve. This is partially because of her age; she's still young, and knows it, and more to the point,

feels that she should make the most of it she can. To her mind, anything like marriage is a long ways off yet, but she still wants to live life in the moment, regardless.

Liese is a person of many likes, and they vary given the day. She just likes having fun, whatever that implies at any given moment, but when it comes to people who just have to bring the whole thing down, or can't seem to stand it when other things, however, Liese can't stand them. She just can't understand why they feel the need to ruin it for everyone else, regardless of whether that everyone else is one person or many. **Goals:** Liese's goal is to live life to the fullest, whatever that implies.

History

Family (or Creators)

- Minna Geliebte (mother), 20 Abwehrran
- Carsten Geliebte (father), 21 Abwehrran
- Resi Geliebte (sister), 7 Abwehrran

Pre-RP

Born in AF 252 (YE 4), Liese had a simple, happy childhood, with not much wrong in it. Her father retired from the Weltraumflotte not long after her first birthday, and her mother already had a steady job working as a natural medicine specialist. Right around the same time as her father retired, her sister Resi was born. Her family was always a kind, happy one, and they were only slightly religious, believing that while your ancestors might help you in your life, it was impolite to bug them about anything too often. She did decently in school, all of the way up to the point where she finished school, and decided to go to college, though for what she had no idea. She did about as well in college as she had in school prior to then, but had much more fun, almost being a stereotypical "party girl". Despite that, she managed to finish college, avoid getting in too much trouble (or getting into much of any serious relationships), and joined the military after, wanting to keep going with something. After serving for a short time in the [Weltraumflotte Marines](#), she transferred to the [Foreign Service](#), reasoning that she had a better chance of getting to see the universe through the FS, and she still wanted to explore.

She has been assigned to the 69th Paramilitary Squad, and has been sent out to the CSEIA station to deal with a terrorist attack there, involving VIPs. They have just arrived on station and are receiving the intel.

Skills

Fighting (Marksmanship)

As part of her training to be a sniper with the Weltraumflotte, Liese was required to qualify at an advanced level with the standard marksman weapons, and performed remarkably well for someone as seemingly incapable of standing still as she is.

Military (Stealth/Camouflage)

By the same token, she performed very passably at stealth and camouflage to the astonishment of her trainers. Though still not fond of hiding quietly in one place for hours, Liese is more than capable of such, and knows how to move quietly and hide herself very effectively from view.

Communications

Liese is fluent in Abwehran and Trade, after contact with the Star Army of Yamatai, and knows the proper procedures to write reports and fill out military documents. She also knows basic operations of standard military communication equipment.

Fighting

Liese has received training in basic close quarter combat using hand-to-hand, knife, and sword combat techniques. Her training also included firearms training with mass-driver pistols and rifles. She is also proficient in the sport of Blitzstahl, which has limited use in a combat setting.

Tech Operations

She can operate shipboard computer systems efficiently and can enter/search for information. Basic operations of ship systems and skinsuits is also included in the training, though she is still looking into getting further training in this direction.

Mathematics

Despite hating every second of it, Liese is familiar with (and tentatively proficient in) math, to include algebra, calculus, and trigonometry.

Physical

Liese has always enjoyed sports (martial arts included), and has played many of them, both as part of a team and on her own, depending on the sport. Due to this, not only does she have a decent knowledge for the rules of a large numbers of Abwehran sports, but she also has kept her body in good shape, though not too muscular. She can run for a goodly amount of time, and does at least average on any feat of strength, though she'd rather find a different method that relies less on strength.
