Personality

Betty can seem pessimistic, or cynical at times, but she has hope even if not admitted. She tends to be gentle and on the down low, caring. She likes black, and clothes of the frilly gothic style, the more elegant the better. Money is not a care to her, and she is more passionate than ever about her music.

History

Betty is a [cohronl](#) of the [astral commonwealth](#). Her family worked on various stations of the frontier region, and as she got older, she grew to love music. Eventually she began to write, compose, and sing her own music. She had talent and great singing voice. However her parents did not approve, and they sought to stop her musical activities. At the age of 17 she ran away from home and headed into western space of the kikyo after struggling for three years, finally starting a career later. Through her hardship, her behavior took a darker tone. She continued life with a touch of black, to everything. Once she had the money she had a gene modification done through [Somatic tuning](#) to give her grey skin, black horns, and changed her name.

In [YE 39](#), Betty was making headway in her career of music out West. Doing concerts across several of the colony worlds in the unaligned region of space, even doing a tour through the [Reservoir System](#), with quite a few shows on [Vice](#). Later she was approached on the creation of a film called "By Starlight", where she played the role of the lead engineer as well as part of the cast as a music adviser. The film was released in the early part of [YE 40](#), which received several awards and much praise, as well as brought the independent music artist some fame. Later that year she would begin dating [Jackson Winston-Allibaster Howard](#), who she met at a private party where she had been requested to perform, for a event called Havok Fest.
