History

Family (or Creators)

Creator/Mother: Oakheart Hotaru

Pre-RP

Lilith's creation was weird, as she had a lot more pumped into her from more than was the usual for what she was, she didn't even know anymore, her mother always spoke to her about something called Yamatai but she didn't find that interesting. As they lived on a planet in the middle of nowhere, it was so her mother could do her experiments without interference from anyone, Lilith liked this as she could roam around the amazing world that was untouched except for the base that her mother had.

Lilith wasn't allow to stray too far away from her home as it was dangerous, but where she was allowed to go she loved, as animals always came to those area as she shared food with some of them, becoming a alpha in her own right of the smaller animals. Lilith never really cared about how she was created as she had a mother who cared for her and taught her what she would need to know in later life, teaching her how to survive and how to kill.

Her mother had given her some armour and a few weapons to use as she was trained how to use them, they seemed good, but Lilith liked using her own hands to kill, her mother said that the armour was for when the prey fought back and the weapons were there in case Lilith needed them.

As she grew up with only her mother and the animals, she had two languages that she could speak, well one, the other was a lot of growling and other animalistic noises, with she learnt other things that her mother said she would need when she was older and working. Lilith found this weird as they lived by themselves but thought her mother meant hunting and that as skills later on so she could live on this planet.

After a year on the planet, her mother started to pack up and this scared Lilith as she didn't know what was going on, her mother told her that they were going to live with other people so she could get use to socialising and that. This surprised Lilith as she wasn't a social being and liked being how she was, but her mother wasn't having any of that and her mother called for a shuttle, it seemed even though they were far, the people that her mother worked with wanted her back quickly.

Lilith hated being with all the other people, they were loud, disrespectful and gave her weird looks, she expected the weird looks, she didn't look like her mother or anyone else that looked back at her she found it disturbing but was quite happy about it as it was another reason she could add to the list of why she could kill these people.

Skills

Communications

Lilith only knows how to read and write in Trade.

She has a weird animalistic language as well but it is more an in anger primal fury.

Fighting

Lilith was taught how to fight hand to hand, and with range weapons as she can use both to kill or wound depending if she wanted to make it slow or fast.

Entertainment

Lilith was taught a lot of things to help her make friends from her mother, she never used them, but she has them in case she ever felt the need to use them.

Domestic

Lilith's mother thought it would be the best to teach her daughter how to do these skills as it meant she could go by herself and actually be able to live.

Survival and Military

Living on a planet without anything but the untamed wilderness has taught Lilith more than anything else, as she has hands on experience with surviving in the wilds.

Rogue

Another thing her mother taught her was “Men are so easy to fool, a little kind word, a little giggle and they are putty in your hands to steal from.” This is one of the lessons that Lilith listened to as it helped her out, when she first ever said it she had only heard of men but after they moved she found out how disgusting and easy to manipulate they were.

Culinary

Lilith knows how to bake and that from her mother, another way to make others like her, but also a way for her to look after herself or to look after others if she needed to.
